Omaha NE 68154

**SUBJECT: City Owned Ash Tree Removals, Emerald Ash Borer Treatments and Stump removal**

Dear Homeowner,

#### ASH TREE REMOVALS

Great Plains Tree Care has been hired by the City of Omaha to remove all the city-owned Ash trees. Your residence has been selected to remove the city owned Ash trees nearest the curb starting as soon as January 12<sup>th</sup>, 2020. This letter shall serve as a notice that we will be removing your city-owned Ash trees (nearest the curb) in the next year.

#### EMERALD ASH BORER (EAB) TREATMENTS

Great Plains Tree Care offers the "Adopt-a-Tree" program for homeowners that choose to save the city-owned Ash tree on their property. Call Great Plains Tree Care to let us know that you would like to save one or more of the city owned Ash trees that are selected for removal. It is a hassle free experience to save your Ash tree and the treatment is effective for two years.

#### STUMP GRINDING

If you choose NOT to save your Ash tree then we will remove the Ash tree at no charge to the homeowner. However, the City of Omaha is not affording the cost to remove the stump after the tree is removed. This cost falls on the homeowner. Great Plains Tree Care will provide a free estimate for stump removal upon your request.

Please call Great Plains Tree Care at 402-541-2831 with any questions or concerns or click for an estimate at [www.greatplainstrecare.com](http://www.greatplainstrecare.com).

Sincerely,

Amy Nakai
